The WRISE Leadership Forum is a unique experience, combining professional development with tools to advance renewable energy – leadership training, renewable industry education, and networking across wind, solar, storage, and other grid technology industries. Professionals from across the country come to discuss current renewable energy trends and policy issues; all while gaining valuable skills and relationships to enhance their careers and build their companies and organizations.

Women of Renewable Industries and Sustainable Energy (WRISE) is a national nonprofit that works to promote the education, professional development, and advancement of women to achieve a strong diversified workforce and support a robust renewable energy economy. # WHO ATTENDS

The WRISE Leadership Forum brings together women and men from across the renewable energy community that are passionate about building a diverse workforce and advancing their careers and organizations. Attendance includes leaders from utilities, developers, contractors, operators, NGOs, universities, national laboratories, advocates, consultants, lawyers, OEMs and more. Last year's forum drew a sold-out crowd of 300 attendees and a waiting list.
